SUMMARY

Front-End Developer with approximately 1 year of experience developing web applications using React.js, Next.js, and TypeScript. Experienced in building responsive interfaces, integrating APIs, managing application state, and optimizing user experience based on Figma designs. Participated in developing and deploying features for real-world products, collaborating effectively with team members to ensure product quality and project timelines.

In the short term, I aim to further develop my Front-End expertise, enhance my skills in building modern interfaces, optimizing performance and user experience, and expand my Mobile development skills to build cross-platform products. In the long term, I aim to become a Full-Stack Developer capable of building and maintaining complete applications from frontend to backend.

EXPERIENCE

- **TESO Global Company Limited** *04/2026 - Present*
  Front-End Developer & Mobile Developer
  - Developed a mobile application and admin dashboard for VitaDairy's customer loyalty program
  - Responsible for UI/UX, API integration, state management, debugging, and ensuring stable performance across iOS and Android
  - Worked on tickets and collaborated with backend, QA, and design teams to ensure timely delivery and quality
  - Applied AI to the coding workflow, combined with automated rule/skill reviews after coding to improve development efficiency and code quality
  - Proactively learned new technologies and continuously updated technical knowledge to meet job requirements
- **DXD Labs Company Limited** *09/2025 - 12/2025*
  Front-End Developer
  - Built responsive user interfaces based on Figma designs using React.js, Next.js, Tailwind CSS, and Ant Design
  - Implemented form validation, API integration, and UI/UX improvements to enhance user experience
  - Worked remotely with team members via Slack to ensure features were completed on schedule
- **Tin Viet Software Solutions** *12/2024 - 04/2025*
  Front-End Developer Intern
  - Developed responsive website interfaces using React.js, Next.js, Bootstrap, and Ant Design
  - Built features for data display, search, filtering, sorting, and form validation
  - Collaborated with team members to discuss requirements and ensure features were completed on time

PROJECTS

- **Vitadairy - Reward app** *04/2026 - Present*
  Mobile Developer
  - Developed the mobile application interface based on designs for VitaDairy's rewards program, supporting both iOS and Android
  - Integrated data from backend systems and handled loading, empty, and error states
  - Developed user registration, mission tracking, and point redemption flows
  - Supported application builds and releases for testers
- **Vitadairy - Web admin** *04/2026 - Present*
  Front-end Developer
  - Developed internal admin interfaces based on business requirements and integrated APIs
  - Built data management forms with input validation and clear error messages for users
  - Collaborated with design, backend, and testing teams to update interfaces based on feedback and ensure usability across different screen sizes
  - Conducted code reviews before handover and checked for functional issues and basic security vulnerabilities
- **ElecKing (E-commerce Website)** *01/2025 - 05/2025*
  Full-Stack Developer
  - Designed RESTful APIs and built MongoDB database structures for core functionalities of the e-commerce system
  - Developed a responsive client interface using Next.js, implementing product search, filtering, sorting, shopping cart, and checkout features
  - Integrated the VNPAY payment gateway and developed modules for order, voucher, and address management
  - Implemented authentication and authorization using JWT, including registration, login, password recovery, and user profile management
  - Conducted code reviews and ensured UI quality

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Drat.
- **Technologies & Frameworks:** React.js, Next.js, Flutter, Tailwind CSS, Ant Design, Material UI, Bootstrap.
- **Tools & Additional Technologies:** Git, GitHub, Figma, Postman, RESTful API Integration, State Management, Node.js, Express.js, MongoDB.

EDUCATION

- **FPT Polytechnic College** *2022 - 2025*
  Web Development
  GPA: 3.75 / 4.00
